This fun workbook helps little ones develop fine motor skills, reading and writing as they trace all the alphabet letters. The layout makes it easy to work for both left- and right-handed students. Each alphabet letter is represented by a cute image of an animal-related word, the word itself and the letter in upper- and lowercase with a diagram showing how to draw the letter. The diagram shows arrows guiding the child on where to start and how to complete the trace, followed by a whole page of repeating letters in lowercase and uppercase for lots of practice. This creates the opportunity to practice eye-hand coordination as the student looks up and down between the top and bottom page to remember how the sequence flows. Spend a little time with your student showing where to start and which sequence to follow to complete the letter. You'll find a handy guide to the alphabet at the top of each new page to show where the letter lives in relation to the others as well as a useful 'numbers' bonus page. Whether you use the workbook at home or in class, we hope this workbook will help your little student master the art of writing while having fun. Dedicated to teachers worldwide, in class or at home ! The LearningBuddies team.
