**What is more powerful and magical than becoming one with the weather around you? Since time began, those who control or can predict the weather are heralded as sacred and valuable. Weather is an intricate part of Nature and Nature is, of course, the Witch's playground. A practicing Witch of more than thirty years, best-selling author, Katrina Rasbold, walks you through all aspects of weather magic, including how to use the energy of different weather events to your greatest advantage and how to work with weather to manifest the type of weather you desire. Blasting through the naysayers and fear-mongers who insist that weather witchery is too intense for a common Witch or that "messing" with the weather only brings negative results, Katrina shows how one can easily work with the energies inherent in different weather systems and meld into the magical processes of Nature.**
