Jan Beyersmann, Arthur Allignol, Martin Schumacher

Competing Risks and Multistate Models with R (Use R!) Jan Beyersmann, Arthur Allignol, Martin Schumacher

This book covers competing risks and multistate models, sometimes summarized as event history analysis. These models generalize the analysis of time to a single event (survival analysis) to analysing the timing of distinct terminal events (competing risks) and possible intermediate events (multistate models). Both R and multistate methods are promoted with a focus on nonparametric methods.
