## **Build Your Own Working Fiberoptic Infrared and Laser Space-Age Projects** Robert E. Iannini

Now electronics hobbyists can put aside ordinary, everyday electronics projects and start building something really exciting. They can probe the possibilities of high technology-lasers, fibroptics, and high-voltage electrical devices; discover the challenge and the satisfaction of building sophisticated and practical electronic and scientific devices for a fraction of the comparable commercial cost. And they can do it all far more easily than they ever thought possible.
