Eureka Math, A Story of Ratios: Grade 7, Module 3: Expressions and Equations Great Minds
Common Core Eureka Math for Grade 7, Module 3

Created by teachers, for teachers, the research-based curriculum in this series presents a comprehensive, coherent sequence of thematic units for teaching the skills outlined in the CCSS for Mathematics. With four-color illustrations, complete lesson plans, and reproducible student worksheets and assessments, this resource is uniquely designed to support teachers in developing content-rich, integrated learning experiences that adhere to established standards and encourage student engagement.

Developed by Common Core, a non-profit advocacy group dedicated to producing content-rich liberal arts curricula for America's K-12 schools, Common Core Mathematics is the most comprehensive CCSS-based mathematics curriculum available today. * The modules are sequenced and paced to support the teaching of mathematics as an unfolding story that follows the logic of mathematics itself. * They embody the instructional "shifts" and the standards for mathematical practice demanded by the CCSS. * Each module contains a sequence of lessons that combine conceptual understanding, fluency, and application to meet the demands of each topic in the module. * Formative assessments are included to support data-driven instruction. * The modules are written by teams of master teachers and mathematicians.

This Module addresses Expressions and Equations. Common Core Learning Standards Addressed in Grade 7, Module 3: 7.EE.1, 7.EE.2, 7.EE.3, 7.EE.4, 7.G.4, 7.G.5, 7.G.6
