Fundamentals of Anatomy & Physiology with MasteringA&P™ (8th Edition) Frederic H. Martini, Judi L. Nath

Frederic (“Ric”) Martini, now joined by accomplished educator and award-winning teacher Judi Nath as his new co-author, builds on his best-selling text by making the Eighth Edition the most student-focused and the easiest to use of all editions yet published. Student-focused elements include new chapter-opening Learning Outcomes, new sentence-style chapter headings that not only introduce new topics but also teach, and a new and simple Tips & Tricks feature that gives you easy analogies and mnemonic devices to help you remember information. The award-winning art program has been enhanced with more deeply contrasting colors and more dimensionality.

Every book is automatically packaged with Martini’s Atlas of the Human Body, the Interactive Physiology® (IP) 10-System Suite CD-ROM (including the brand-new and eagerly-awaited 10th module on the Immune System), and access to the dramatically upgraded myA&P™ companion website. Convenient references in the chapters of the book to the Atlas, IP-10, and myA&P help you seamlessly integrate each component into your study routine. In addition to IP-10 and myA&P, the enhanced media offerings for this edition include the new 3D Anatomy Animations with Gradable Quizzes, the new 3D Animations of Origins, Insertions, Actions, and Innervations with Gradable Quizzes.
