No matter what hardships you are experiencing now or how many job interviews you've failed at, this book will give you the surefire strategies and confidence to quickly step up your game. Written from the wisdom gained by a struggling college graduate who tirelessly researched interview methods through trial and error and countless resources to create the ultimate "get hired fast" method.

Let's face it. You spent a LOT of time, hard work, and MONEY getting your university degree. You were probably told it would be a no-brainer to land a great paying job after you graduated. "People with your degree are starting at \$60,000 per year" you were told by professors, parents, even corporate recruiters.

But now you're out there interviewing and things aren't going as planned. Sure, you can get low paying jobs, the same ones you could get without your degree. But the high paying, challenging jobs with a promising future? Those seem depressingly out of reach.

What's wrong?

First of all, don't panic and don't let yourself get depressed. The people who told you there are great jobs available for fresh college graduates were actually right. There are LOTS of great positions that are looking for someone exactly like YOU.

The problem is managers don't spend much time if any trying to get to know you. They don't for a second guess you're nervous or aren't a natural public speaker. They figure if you can't SELL THEM, they shouldn't hire you.

That's too bad. So much great talent is walking out the door. But instead of complaining, let's CHANGE the situation so YOU are the winner.

"How to Pass Any Interview and Land Your Dream Job" gives you the SIMPLE, EASY steps you need to blow managers away in any job interview. They won't just be impressed, they will be AMAZED by how you perfectly match what they're looking for.

This is coming from someone who struggled finding a job to landing a job with two of the top Fortune 500 companies in America!
